

QINGDAO TONGJIA TEXTILE MACHINERY CO., LTD

Chute Feed Machine
Model: FA1171

This Commercial type machine is used to maintain continuous and consistent feeding of fibre (22-76mm in length) sheets of a uniform packing density and uniform linear density to the carding machine

Condition	Brand new and latest version
Control system	PLC control, automatic system (Jointly control with carding machine)
Suitable fiber	Cotton synthetic and all other man-made fibers in length less than 76mm.
Working width	950 mm
Production Capacity	100 kg/h
Diameter of feed roller	Φ 120 mm
Diameter of opening roller	Φ 266 mm
Blower speed	2840 r/min
Air displacement	500(m ³ /h)
Power supply	380-440V,50Hz, 3Phase
Energy consumption	3.35 KW
Weight	1350 KG
Maximum height	13.5 feet
Total dimension	1530x650x2800mm
