

QINGDAO TONGJIA TEXTILE MACHINERY CO., LTD

Multi Mixer Machine
Model: FA027

Feature:

1. All the storing chambers feeding at the same time.
2. Air pressure in six/eight chambers can be adjusted by air pressure gauge.
3. The material volume in chambers can be controlled by air pressure changing.
4. This Commercial type machine is used to ensure that a perfect and homogenous blend is achieved of raw material (Fiber length: 22- 76mm).

Technical Specification:

Condition	Brand new and latest version
Control system	PLC control/ Automatic control system
Display type	Digital LCD display
Display size	7"
Mixer no.	6 Pcs
Capacity	350 kg/hr.
Feed fan Frequency Control	4320 cubic meter/hr
Air Pressure/Speed (Material Inlet, Material Outlet, Exhaust dust Outlet, Waste suction Outlet)	4500 / Speed-13m/min
Power supply	380-440V,50Hz, 3Phs,
Energy consumption	13KW
Weight	5500 KG
Maximum height	13.5 feet
Dimension	6250x1624x4145mm
